

Australian Hemp Manufacturing Company

ENVIROMENTAL POLICY

Aim:

The Australian Hemp Manufacturing Company is committed to conducting our business in an environmentally aware and responsible manner. AHMC is committed to the continual improvement of their Environmental Management. We seek the co-operation of our employees and business partners in ensuring our organizational practices are conducted with minimal environmental impact.

Objective:

To work with employees, contractors, visitors and business partners to achieve compatibility between economic development and the maintenance of the environment to minimize harm.

Policy:

The Australian Hemp Manufacturing Company will endeavour to minimize impact on the following:

- Atmospheric emissions
- Site contamination and spills
- Noise Emission
- Damage to flora and fauna
- Storm water management
- Unnecessary energy consumption

To fulfill this commitment, the Australian Hemp Manufacturing Company, will observe all environmental laws and promote environmental awareness among all staff to increase understanding of environmental matters.

The Australian Hemp Manufacturing Company will actively take part the following:

- Improve purchasing (buy recycled materials, reduce waste, use less harmful/volatile chemicals)
- Improve storage (reduce quantity, waste and spills, reduce odours by keeping containers closed)
- Conserve energy (eco-friendly lighting, turn lights off, emergency efficient equipment, greener fuel sources – such as LPG and methane)
- Conserve water (install water saving accessories, repair leaks)
- Emergency planning and spill response
- Seek licenses/permits from State Environmental Protection Agencies and other relevant Authorities, where appropriate.
- Improve education/awareness
- Notify relevant authority in the event of a major environmental impact.
